### PROFESSIONAL EXPERIENCE

Senior Web Developer • August 2015 – July 2016

*Teqspring Inc., Las Vegas, Nevada, USA – (Creative Works Inc., Ecuador)*

Responsibilities:

Full-stack programmer of web applications.

- ✓ Designed and put into practice several mechanisms and patterns to clean and identify useful data
- ✓ Improved parsing functionalities, increasing the quality of the information in more than 80%
- ✓ Integrated latest version of APIs to comply with the core business of the application
- ✓ Increased consumer experience with the development of an online purchase catalog

Technologies: PHP, PCRE, MariaDB, Git, GitHub, HTML5, CSS3, JSON, Sphinx Server, JQuery, Twitter Bootstrap, Yii2

### Senior Web/ERP Developer • November 2014 – July 2015

*Numencorp SA, Quito, Ecuador*

#### Responsibilities:

Enterprise Resource Planning (ERP) systems developer and designer.

- ✓ Increased management potential for customers by developing new customized modules for an ERP system
- ✓ Improved customer experience by optimizing how the application handled large volumes of data
- ✓ Handled critical issues for already-on-production ERP application instances

Technologies: AngularJS, PHP, PECL, PEAR, MySQL, Git, HML5, CSS3, XML, JSON, JavaScript, JQuery, Twitter Bootstrap

### Web Developer • July 2013 – October 2014

*Northern Exposed Inc., Toronto, Canada*

#### Responsibilities:

Assisting in the design, coding, and testing of web applications, as well as migrating old websites to newer technologies.

- ✓ Assessed technologies migration for already-in-production web applications
- ✓ Enhanced graphic user interfaces and user experience, adapting sites to be responsive to different devices
- ✓ Improved customer support by developing an intern application to manage change requests
- ✓ Increased clients revenue with the development of e-commerce sites
- ✓ Decreased server failure times and improved database structure and maintenance

Technologies: Twitter Bootstrap, AngularJS, ASP.NET, VBScript, MS SQL Server, Git, HML5, CSS3, JavaScript, JQuery

### Desktop Application Developer/Project Leader • September 2009 – June 2013

*ALBET SA, Havana, Cuba*

#### Responsibilities:

Leading the development team for an application to create and clone ISO images of GNU/Linux operating systems.

- ✓ Managed the software requirements and team resources
- ✓ Evaluated architectural changes and integration issues with Nova GNU/Linux
- ✓ Simplified graphical user interfaces and their behavior

Technologies: C/C++, Qt Framework, QtCreator, Bash, PHP, Linux Kernel, Grub, SVN, RedMine
